

Chandan kumar

NODE.JS Developer with 1.7+ years of experience, specializing in **Node.js** and **TypeScript** focused on building scalable, high-performance web applications and collaborating effectively with teams.

EXPERIENCE (+1.5 YEARS)

[LegitBytes, IT Services LLP](#)

Backend-focused Full Stack Developer specializing in Node.js and Next.js.

Designed and maintained **REST APIs** using Node.js and PostgreSQL, supporting **multiple production features** with high reliability.

Emphasized performance, maintainability, and clean integrations to deliver robust, end-to-end web applications

EDUCATION

Punjabi University, Patiala, Punjab, India

Degree :BCA – Bachelor Computer Application CGPA : 7.6/10

Duration: 2020–2023

PROJECTS

Speed Climbing Performance Analysis Platform - Company project

Developed the backend for **Athlete Vision** using **Node.js**, **AWS Lambda**, and integrated **Chargebee** and **Stripe** for payment processing and subscription management. Designed scalable, serverless APIs to support Admin, Trainer, and Athlete panels, implementing secure **CRUD** operations, role-based access control, and real-time data handling for seamless functionality.

Audit Management Tool - Company project

Developed a platform to automate evidence collection for FedRAMP compliance, streamlining auditor review workflows and

control approval/rejection, Ensured secure data management, simplifying compliance processes for admins and auditors, Integrated automated evidence fetching and manual evidence submission features, enhancing the efficiency of the audit process.

Historical Gurudwara Management Tool — Company project

I developed a dashboard for managing historical Gurudwaras using ReactJS for the front-end and Node.js for back-end API.

English, Hindi, Punjabi

PERSONAL PROJECTS

Real-Time Chat Application

Chatty [link](#)

Built a full-stack real-time chat app using Next.js, Node.js, MongoDB, and Socket.IO. Implemented real-time messaging, user authentication, and message persistence. Designed 20+ dynamic themes for enhanced user customization. Optimized performance and deployed the application on Render.

E-Commerce Backend System [link](#)

Developed a scalable e-commerce backend using **Node.js**, **Express**, and **MongoDB** with secure REST APIs. Implemented **Stripe payment gateway** for handling online payments, order processing, and transaction management.
